YSI 2500 Glucose/Lactate Analyzer

The cost effective alternative to the 2900D analyzer, supporting identical analytical methodologies for glucose and lactate assays only. The 2500 system supports fully automated sampling protocols, in addition to stat and syringe sampling, making it an ideal candidate for all of your laboratory sampling needs.

YSI has earned a reputation as the Gold Standard in bio-analytical instruments with highly accurate sensors and rapid results:

- Analyte-specific results in 60 seconds or less
- Proprietary immobilized enzyme electrodes
- Unique fluidics resist clogging
- Trusted measurement technology
- Automated sample handling
